15	16.43	212.01	1 Pak	1 Cube	2 Cubes	221.58

You can begin your circle with your choice of diameter! The packaging of the Cobble Circle makes it easy to order just what you need. The chart above shows the total number of stones per ring. (i.e. Ring 7=96.5 inch diameter which requires 30 pieces of the Large Circle Stone and 30 pieces of the Three Quarter Stone.

For figuring large circles see our Stone Calculator at www.borgertproducts.com

To go the Full Circle, the chart to the left lists the quantities and square footage of your chosen diameter. (i.e. a 14.31 foot diameter circle requires 1 center pak, 1 cube of Large Circle Stone, and 1 cube plus 2 bands of Three Quarter Stone – giving you a finished area of 163.76 square feet.)
