KEY

C, SC, MC = Center Pack, needed for all circles

LC = Large Circle

TQ = Three Quarter

To go the Full Circle, the chart to the left lists the quantities and square footage of your chosen diameter. (i.e. a 20.02 foot diameter circle requires 1 center pak, 3 cubes plus 1 band of Large Circle Stone, and 2 cubes plus 5 bands of Bavaria Three Quarter Stone or 2 cubes of Bavaria II Three Quarter Stone - giving you a finished area of 314.78 square feet.)

For figuring large circles see our Stone Calculator at www.borgertproducts.com
